

Information on Original and Foundation Members of the RACI

Below are listed those members, with known addresses who were admitted to Full/Corporate Membership (as it is now known) in 1932 or earlier, and the year of their admission. 1932 has been selected because it is the year in which the Institute was incorporated by Royal Charter. Those members who were admitted in the years 1917-1919 have been known as "original members" and are further indicated by an asterisk.

A number of the members admitted during the years following 1932 were "Students" of the Institute for some years before that date but it has not been practicable to list them because of the difficulty of establishing "Student" enrolments at that time.
