

## **Analytical & Environmental Chemistry Division**

### **Environmental Chemistry Medal**

The medal is awarded annually for excellence in scientific work in Australia that has involved substantial environmental chemistry, or for service to Environmental Chemistry in Australia, over the past ten years.

Applications/nominations can be made by individuals or RACI State Groups. A nomination must be seconded by two RACI members and include the names of two referees with knowledge of the candidates work. Referees may second the nomination. Candidates must be corporate members of the RACI for a minimum of two years and be resident in Australia when nominated.

Applications/nominations will be considered against the criteria:

1. Overall contribution to Environmental Chemistry in Australia over the last ten years.
2. National and international standing in the field of Environmental Chemistry.
3. Contributions by the way of research, teaching, policy development and/or application of environmental chemistry to industry.
4. Service to the RACI and general promotion of environmental chemistry in Australia.

The nomination must include the following information:

- Name & contact details
- Curriculum vitae
- A list of significant works. These may include industrial reports, patents, refereed research papers, other significant publications (e.g. books, review chapters), or conference papers. The selection committee will also give consideration to those whose contribution is not directly reflected by publications.
- A statement of no longer than 500 words of the nominee's contribution to environmental chemistry in Australia, addressing the criteria listed above.
- A photograph of the nominee.

The Standing Committee of the Division will appoint a sub-committee to consider the nominations and make recommendations. No award shall be made if the Standing Committee considers that there is no candidate of sufficient merit.

The recipient will present a medalist's lecture at the RACI Research and Development Topics meeting.

Nominations shall be submitted electronically to the RACI Analytical and Environmental Chemistry Division Chair.
