The BDD Group focus is the nexus between research and industry. Overall, the Group aims to provide a regular networking forum for scientists and professionals from academia, industry, research institutes, government organisations, etc., involved in all stages of discovery and development of bioactive molecules, primarily for pharmaceutical applications. Complementing the RACI Medicinal Chemistry and Chemical Biology Conference, please join us at the next BDD Group event where our three guest speakers will provide their insights on...

“WHAT MAKES A SUCCESSFUL RESEARCH PARTNERSHIP BETWEEN INDUSTRY AND ACADEMIA?”
