RACI Bioactive Discovery and Development Group Seminar

“Product Discovery and Development in Animal Health”
Dr Peter Rolfe
Advisor, Research and External Innovation, Elanco Animal Health

Please join us for an informative evening of discussion and dining with our guest speaker Dr Peter Rolfe on Tuesday, 25th June at the St. Andrews Hotel, Fitzroy. Dr Rolfe will present a perspective on drug development at Elanco, a world leading animal health company.

Dr Peter Rolfe is responsible for bringing new external opportunities to the research and development pipeline at Elanco. With expertise in parasitology, Dr Rolfe has experience leading research teams at both animal health companies and government organisations. Before Elanco, Dr Rolfe was Head of Clinical Efficacy at Novartis Animal Health and Team Leader for international new product development at Pfizer Animal Health. This followed working on a range of animal health research projects for Meat and Livestock Australia, NSW Agriculture and Diagnostic Veterinary Laboratory Queensland, and as a consultant on parasitology and cattle health in China and Indonesia. Dr Rolfe earned his Doctorate at the University of Sydney studying the pathology and treatment of cattle parasites and has degree in Veterinary Science from the University of Sydney.
